### Students'Corner

### **Expression of a peacock:**

Zahra Abbas (IX - C)

So many colours, with large feather tail, I, the peacock, was living in a beautiful part of Amazon Jungle. Wind used to blow around my feathers. When I shook myself in rain, it seemed that all the animals of the jungle danced with me.

I was living a happy life. Dancing with joy, swimming in a stream, chatting with other peacocks. It was a free life that every morning I wake up and find myself lying on grass. Everyday campers were coming and taking photographs of my beautiful and lovely feathers. I had no idea that because of my beauty, I would be kept in a cage. It was a sunny day and I was playing and taking bath in the stream near a little village, when people who lived in a city, came to camp. While I was chattering with my friends, I felt hungry and the next moment, I saw birds' food beside a little tree. I was so hungry that I didn't notice the trap suddenly a cage fell on me and I was trapped. My friends ran away with fear. I was carried to the city where there was no greenery or blowing wind. I was kept in a little cage where I couldn't play or run or open my feathers freely. My cage was sent to in a "City Zoo". I missed my home and my friends. Every night I slept with fear in corner of cage. I couldn't take bath in stream or danced from one corner of jungle to another.

I had never imagined that my beauty would give me such a punishment. People don't even realize that animals also have feelings and they also want to live freely in this world.

#### My feelings on Result Day:

Sabika Zehra (IX - C)

Result day is commonly determined as the day of excitement, surprise and enthusiasm for students of all age groups. Same happened with me.

I was very excited for my result which was a bit suspense but on the other hand I was satisfied that I would score good as I had put on all my efforts for exam preparation. And finally, that moment came when I got certificate from Agha Roohani along with the Naunehal subscription for one year and at last my excitement came to an end.

### My last day of school:

Zakir Hussain (X - A)

My last day of school. Ah! What a sad line it is! But we, the student of GIFS, are blessed that we shall not be forgotten. The time I spent here will always be remembered. In all these four years, I hardly saw any teacher beating any student. The biggest thing they did was encouraging us. Even if we did something wrong, they wouldn't get disappointed, instead they would even boost us which helped us a lot. The most important thing which I got from GIFS is "OPPORTUNITIES".

I remember, our inspirational and motivational mentor Agha Ghulam Raza Roohani once said, "A piece of paper cannot decide your worth". It was the most motivating line for me.

All the teachers worked very hard teaching us, helping us, but I would like to share some funny words and moments of our few teachers.

As Sir Rizwan's knowledge about students that he used to say that he knows Hadi very well because he has been teaching him since he used to run through his legs.

Sir Raza Alam's way of giving example; his examples were not as funny as his way of explaining.

Sir Waseem's class was the most relaxing class in terms of dictation. He would repeat 4-5 words 2-3 times. For instance Azam & Moazzam were..... Azam..... Azam.....and then he would say two brothers full stop.

Sorry sir, I just wanted to make everyone laugh, but as you know I respect you all and will always remember you in my prayers. Thanks.

### When I say Allah o Akber:

My problems are small, my losses will recover.

I am sure when I say Allah o Akber!

The world does not matter ,when I am in prayer.

I am sure when I say Allah o Akber!

I will get best here, and in my hereafter I am sure when I say Allah o Akber!

My Imam is alive, and I am his Soldier. I am sure when I say Allah o Akber!

S.M.Mesum Rizvi (VII - A)

### **Spread Happiness:**

This is the message of our Lord To spread smile in the world

Yeh true it is a hard job But what we hope we can adopt

To free the world from miseries & sorrows By our servings the earth might glow

Let's leave our pains behind Instantly change what's destined

Rubab Nagvi (X - C)

### **Riddles:**

- i. What is easy to get into, but hard to get out of?
- ii. The more you take, the more you leave behind.
- iii. Which year number is the same upside down?
- iv. A thing who has head and tail but no body.v. You can see me in water but I never get wet.
- vi. What belongs to you but other use it more than you do?
